Oğuzhan Kurum.

Senior Full-Stack Developer & React Native Lead · Istanbul, Türkiye · open to remote

I design and build web, backend and mobile products end to end, from architecture to store and production releases. Most recently CTO at GeoPixo (Next.js, PostGIS, Stripe Connect) and lead of the React Native team behind Ekonobi's crypto trading app. I have shipped for companies in the US, Germany and Türkiye, and I am building my own 3D game in three.js.
